*Webrooms is the most innovative and functional online booking system for accommodation providers in New Zealand. It combines smart technology with an easily operated user interface to bring you and your guests an attractive, seamless and full featured booking experience.*

### **Customisable**

Webrooms is built to match your business. Giving you the tools to change your room types, the questions asked to guests during a booking and even the color of the booking system itself. We make sure your booking system represents your business.

### **Deals and Promotions**

Webrooms allows for active marketing of your properties deals and promotions. With an easy to use deal builder Webrooms allows you to create all sorts of special offers. From all kinds of discounting to value add packages, Webrooms has it all.

### **Mobile Responsive**

More guests are making reservations via mobile devices every year. Webrooms is purpose built with this in mind. We make the booking process easy and seamless for guests regardless of their device size or type.

### **Local Events and Attractions**

Webrooms has a smart events system which allows you to showcase local events and attractions to guests as they book. Never hear “I would have stayed another night if I had known that was on” ever again.
